### **About Inari Medical, Inc.**

Inari Medical, Inc. is a commercial-stage medical device company focused on developing products to treat and transform the lives of patients suffering from venous diseases. Inari has developed two minimally-invasive, novel catheter-based mechanical thrombectomy devices that are designed to remove large clots from large vessels and eliminate the need for thrombolytic drugs. The company purpose-built its products for the specific characteristics of the venous system and the treatment of the two distinct manifestations of venous thromboembolism, or VTE: deep vein thrombosis and pulmonary embolism. The ClotTrieve system is 510(k)-cleared by the FDA and CE Mark approved for the treatment of deep vein thrombosis. The FlowTrieve system is 510(k)-cleared by the FDA and CE Mark approved for the treatment of pulmonary embolism and clot in transit in the right atrium.
