#### Second Quarter 2021 Financial Results

Revenue was \$63.5 million for the second quarter of 2021, compared to \$57.4 million for the prior quarter and \$25.4 million for the second quarter of 2020. The increase over prior year was driven by continued U.S. commercial expansion and new product introductions.

Gross profit was \$58.6 million for the second quarter of 2021, compared to \$21.9 million for the same period of 2020. Gross margin was 92.4% for the second quarter of 2021, up from 86.3% for the same period in the prior year, due primarily to the impact of an idle capacity charge in the second quarter of 2020 of \$1.1 million, combined with current quarter product mix and manufacturing efficiencies.

Operating expenses for the second quarter of 2021 were \$54.5 million, compared to \$22.5 million for the second quarter of 2020. The increase was mainly driven by an increase in personnel-related expenses to fund the expansion of the commercial, research and development, clinical and support organization.

Net income was \$4.1 million for the second quarter of 2021 and net income per share was \$0.08 on a weighted-average basic share count of 49.7 million and \$0.07 on a diluted share count of 55.6 million, compared to a net loss of \$3.8 million and a net loss per share of \$0.16 on a weighted-average basic and diluted share count of 24.3 million in the same period of the prior year.

Our cash, cash equivalents and short-term investments were \$176.1 million as of June 30, 2021.
